

EXECUTIVE SUPPORTING PORTFOLIO

Documentary Evidence Supporting Executive Leadership in Business Transformation, Product Development, Engineering, Manufacturing, Supply Chain & Commercial Operations across Asia-Pacific (Hong Kong, Taiwan, China, Korea, Malaysia, Indonesia, Singapore), Europe and North America.

Executive Portfolio Website: <https://francistai.github.io>

Business Performance Highlights

- Recognized by executive management as a trusted business leader, repeatedly selected for expanded leadership responsibilities to lead strategic organizational transformation, business turnarounds, and growth initiatives.
- Delivered 27.3% revenue growth (~US\$81M / HK\$631M) and improved gross margin from 6.67% to 8.14% through commercial product growth, market expansion and cross-company leadership during organizational transformation.
- Reduced lead time from 60+ days to approximately 30 days through manufacturing and supply chain optimization.
- Improved manufacturing throughput by 10%+ while achieving approximately 95% on-time delivery.
- Reduced ERP inventory by US\$7.2M, improving operational efficiency and working capital control.
- Reduced R&D costs by 85% (from US\$3.0M to US\$0.45M) through strategic ODM/OEM business transformation, platform standardization, design optimization and supplier collaboration.
- Contributed to 25% annual company growth, supporting expansion from approximately 500 to over 1,200 employees through business expansion and organizational transformation.
- Commercialized one of the smallest and best-value DVB-T digital TV receiver platforms in Europe, achieving large-scale distribution through leading international retailers.
- Led international OEM/ODM product development, manufacturing, supply chain and P&L across Asia, Europe and North America.
- Led business transformation initiatives for connected devices, Edge AI, IoT and smart hardware platforms, including concept definition, system architecture, chipset selection, product design, IRAP project development, BDC funding initiatives, and SR&ED experimental development and engineering activities. Delivered key platform architecture, product design, and strategic funding documentation within three months of appointment as Product Development Lead.

1. Connected Devices, Edge AI & Industry 4.0 Platform (Oct 2025–Jun 2026)

Role: Product / Program Lead

- Led product strategy, system architecture, and roadmap development for an Edge AI-enabled IoT platform integrating intelligent sensing, embedded AI, connected devices, and real-time analytics.
- Defined product requirements, chipset strategy, supplier engagement, and deployment roadmap from concept through production readiness.
- Directed cross-functional execution across hardware, firmware, AI/ML, suppliers, manufacturing partners, and business stakeholders.
- Developed scalable Edge AI, gateway, and cloud analytics architecture supporting Industry 4.0, intelligent monitoring, computer vision, and connected-device applications.

Outcome

- Established a scalable AIoT platform architecture supporting future product commercialization.
- Demonstrated feasibility through prototype validation, technology integration, and commercialization planning.

2. Consumer Electronics & Connected Hardware Portfolio (2004–2019)

Role: Founder & Director

- Built and led R&D, product management, OEM/ODM engineering, manufacturing, procurement, and global supply chain operations across China and Taiwan.
- Managed hardware product portfolios from product strategy, chipset selection, product definition, NPI, commercialization, and mass production.
- Delivered consumer electronics programs for Carrefour, Tesco, ASDA/Walmart, Bang & Olufsen, METRONIC, TCL, DXG, and other international customers.

- Led early development of the **iMAP BLE Indoor Positioning & Proximity Platform**, integrating smartphone applications, Bluetooth Low Energy (BLE), indoor navigation, and location-based customer engagement solutions. Contributed to an early BLE utility patent supporting proximity-based mobile services.

Outcome

- Improved manufacturing throughput by 10%+.
- Achieved 95% on-time delivery.
- Reduced lead times by approximately 50%.
- Managed semiconductor procurement commitments exceeding US\$600K per purchase order.
- Commercialized one of Europe's smallest and best-value DVB-T digital TV receiver platforms.

3. OEM/ODM Product Transformation (2001–2004)

Role: BU Team Lead

- Led ODM-to-OEM transformation and product portfolio expansion for Lenovo, Creative, Samsung, and other global consumer electronics brands.
- Directed product strategy, supplier management, manufacturing readiness, and cross-functional execution across engineering, supply chain, manufacturing, and quality.

Highlights: Creative MP3 Discman Player & Lenovo OEM MP3 Player (100K+ Units Each)

- Samsung ODM program was discontinued due to design constraints, tooling limitations, and stringent drop-test requirements.
- Following the Korea team transition, assumed BU Team Lead responsibilities and led product redesign, engineering trade-off resolution, chipset and tooling supplier coordination, QA validation, NPI, production readiness, and in-house manufacturing ramp-up through mass production.
- Directed product strategy, product roadmap, chipset planning, OEM pricing strategy, supplier management, manufacturing readiness, and cross-functional execution across engineering, supply chain, manufacturing, and quality.
- Reduced R&D costs from approximately US\$3.0M to US\$0.45M (85%) through BU restructuring, Korea R&D consolidation, resource optimization, memory and anti-shock buffer cost optimization, and establishment of the China R&D center. (Source: PINE Technology Holdings Financial Reports attached.)
- Improved production throughput and product reliability, successfully delivering 100K+ units to Creative.
- Transferred to Moosik Limited as a Founding Shareholder to lead Lenovo OEM product development and manufacturing, successfully delivering 100K+ units.

Outcome

- Reduced R&D costs by 85% through BU restructuring and China R&D setup
- Reduced ERP inventory by US\$7.2M (25.9%).
- Improved working capital efficiency.
- Improved production throughput and product reliability.
- Promoted to BU Team Lead within six months and later became a founding shareholder in recognition of outstanding turnaround leadership and business contributions.

4. Commercial Transformation, Product Growth & Market Expansion (1999–2001)

Role: Sales & Product Development Lead

Highlights:

- Following Ngai Lik Group's corporate restructuring and executive leadership transitions across both Ngai Lik Group and Denca, assumed expanded leadership responsibilities to ensure business continuity while supporting the company's transformation from VCD and audio products to DVD platforms.
- Led product strategy, roadmap planning, commercialization, business development, pricing, chipset planning, and cross-functional coordination across product development, planning, manufacturing, and supply chain.
- Managed strategic customer programs from opportunity development through commercialization.

Outcome

- Delivered 27.3% revenue growth (~US\$81M / HK\$631M).
- Improved gross margin from 6.67% to 8.14%.
- Recognized as a top-performing and well-liked business and product development leader.
- (Source: Ngai Lik Holdings Financial Reports attached.)

5. OEM Business Transformation & Scale-up Leadership (1996–1999)

Role: Project Engineering & OEM Programs Manager

Highlights

- Selected to lead OEM business development and program execution for a newly established subsidiary, supporting rapid organizational growth from approximately 500 to over 1,200 employees.
- Led the company's business transformation from domestic audio product distribution to export-oriented OEM manufacturing and portable VCD product platforms, establishing new OEM capabilities and supporting business expansion.
- Directed OEM product strategy, engineering coordination, supplier management, manufacturing, logistics, and end-to-end program execution for SANYO and DAEWOO portable VCD products.
- Managed product development, BOM/COGS optimization, engineering specifications, supplier coordination, pilot builds, and mass-production readiness.

Outcome

- Supported organizational growth from approximately 500 to over 1,200 employees.
- Contributed to approximately 25% annual sales growth.
- Successfully established export-oriented OEM manufacturing capability for portable VCD products.

Executive Portfolio Overview

This portfolio provides documentary evidence supporting my executive leadership experience in Product Management, Engineering, Manufacturing, Supply Chain, and Commercial Operations across more than 30 years of international experience. It complements my resume by providing employment verifications, professional references, technical supporting documentation, and performance evidence that validate my executive leadership experience, technical expertise, and professional achievements.

Section 1 Portfolio Overview

Document	Purpose
Executive Engineering Portfolio Overview	Provides a visual summary of my engineering, product development, OEM/ODM, manufacturing, supply chain, e-commerce systems, mobile application development, and technical leadership experience across multiple companies, serving as an executive introduction to the supporting portfolio documents.

Section 2 – Employment Verification & Professional References

Company	Referee	Document	Issued
Milo Enterprises Inc.	—	Employment Verification (Manufacturing Manager → Manufacturing, Supply Chain & Product Development Manager; Expanded Responsibilities & Business Transformation)	16 Mar 2026
Milo Enterprises Inc.	Wei (Will) Wang Former Director of Marketing and Operations	Professional Reference (Executive Leadership, Edge AI, IRAP Innovation, Product Development, Supply Chain & Business Strategy)	27 Jun 2026

Milo Enterprises Inc.	Adam Hui Global Quality Manager	Professional Reference (Manufacturing, Quality, New Product Introduction (NPI) & Cross-Functional Leadership)	25 Jun 2026
Milo Enterprises Inc.	Eddie Liu Management Information Systems Specialist	Professional Reference Expanded Responsibilities from Manufacturing Manager to Manufacturing, Supply Chain & Product Development Leadership, including Project Lead for Edge AI, IRAP Initiation, Business Transformation & Cross-Functional Leadership	30 Jun 2026
Milo Enterprises Inc.	—	IRAP Project Leadership & Government Funding Initiative (NRC IRAP Correspondence, Project Coordination, IRAP Meeting & Reviews)	Mar–Jun 2026
Milo Enterprises Inc.	—	Offer Letter (Manufacturing Manager)	24 Oct 2025
Woods Global Limited (Founder & Director)	Dick Lim Lee Executive Director	Employment Verification Letter	27 Nov 2025
METRONIC SAS (Key European Customer – Dale HK)	Nicolas Lamblain R&D Manager	Customer Professional Reference (OEM/ODM Product Development, NPI, Chipset Selection & Cost Optimization)	22 Dec 2025
iWedia (Technical Partner – Philips & Dale HK)	Zhengjie Dong Former Managing Director, iWedia China Current CEO, Beijing Zhengjie Technology Co., Ltd.	Professional Reference (DVB-T Firmware Integration, Cross-Company Engineering Coordination & Production Readiness)	22 Dec 2025
Dale (HK) Ltd.	Eva So Executive Director	Employment Verification (Product Development, Manufacturing & Supply Chain Leadership)	27 Nov 2025
Dale (HK) Ltd.		Founder & Director Verification	30 Apr 2019
Moosik Ltd.	Wang Shih Zen President, Moosik Ltd. Vice President, Executive Director & Board Representative, Pine Technology Holdings Limited Chairman & Chief Executive Officer, Z-Obee Holdings Limited (HKEX-listed company)	Promotion, Transfer & Founding Shareholder Supporting Document Original Subscriber & Founding Shareholder (5% initial equity; 95% held by Wang Shih Zen). Supported by the signed Memorandum & Articles of Association (19 Dec 2002), Certificate of Incorporation, and Annual Return (AR1/NAR1), which confirm my status as an original subscriber and founding shareholder of Moosik Limited.	Hong Kong Companies Registry – M&A (2003); NAR1 (2004)
Moosik Ltd.		Professional Reference (Strategic Planning, Execution & Business Leadership)	19 Feb 2004
Pine Technology Holdings Ltd. (HKEX-listed company)		Promotion to BU Team Lead & Expanded Leadership Responsibilities Supporting Business Transformation – Official Company Announcement.	1 Mar 2002
Pineview Industries Ltd.	Michael Chiu Acting Unit Manager	Employment Contract (Project Manager)	17 Jul 2001
Ngai Lik Industrial Holdings Ltd. (HKEX-listed company)	Jim Yeung Finance Director & Group Executive Director, Ngai Lik Industrial Holdings Ltd.	Employment Transfer Confirmation Following Group Reorganization (Sales & Marketing Manager, Effective 1 Apr 2000)	1 Nov 2000

Ngai Lik Industrial Holdings Ltd. (HKEX-listed company)	Raymond T. Tam Chief Executive Officer, Cataleya Leatherware Company Ltd.; Former Executive Vice President, Orient Power (Wuxi) Digital Technology Co., Ltd. (HKEX-listed company); Former Director of Production & Engineering, Ngai Lik Industrial Holdings Ltd.	Professional Reference (Supporting Engineering Team, New Product Development & Production Ramp-Up during the VCD-to-DVD Transition)	6 Jun 2026
Denca Ltd. (A subsidiary of Ngai Lik Industrial Holdings Ltd. (HKEX-listed company))	Tan Hui See Former Managing Director, Denca Ltd. Later Managing Director, Dolby Asia Pacific Limited	Professional Reference (Leadership, Integrity & Professional Competency During the Denca and Ngai Lik Group Leadership Transition)	18 Dec 2025
Denca Ltd.	Tan Hui See Former Sales & Marketing Director (Reference issued following resignation in Apr 2000)	Professional Reference (Promotion, Sales & Marketing Manager, Client Relationship Management, Well-Liked, Professionalism & Leadership Recognition)	1 Sep 2000
Denca Ltd.	Dennis Kwong Assistant Marketing Director (Joined in 2001 following the Sales & Marketing leadership transition)	Professional Reference (Promotion, Product Development & Top Performer / Outstanding OEM/ODM Business Performance)	10 Mar 2001
Denca Ltd.	Personnel & Administration Manager	Employment Confirmation & Salary Adjustment	16 Dec 1999
Denca Ltd.	Sammy Tam Finance Director & Group Executive Director, Ngai Lik Industrial Holdings Ltd. (Resigned in early 2000)	Employment Contract (Assistant Marketing Manager)	16 Sep 1999
Wai Kai Electronics Ltd.	Kenny Chen Chief Electronic Engineer/Previous Owner	Professional Reference	19 Dec 2025
Wai Kai Electronics Ltd.		Engineering Experience Verification	17 Dec 2025
Wai Kai Electronics Ltd.	C. K. Chan Director	Employment Confirmation	14 Sep1999
Wai Kai Electronics Ltd.		Project Success Recognition	15 Jan 1999
Wai Kai Electronics Ltd.		Promotion & Salary Verification	14 Oct1996
Philips Hong Kong Ltd.	Adrian Wong P.Eng., Former Engineering Group Leader, Philips HK; Current Chief Product Officer, Aura Circle	Professional Reference	19 Dec 2025
Philips Hong Kong Ltd.	Nelson Li Human Resources Manager	Employment Confirmation	27 Mar 1996
Philips Hong Kong Ltd.		Salary Increase Confirmation	29 Dec 1995
Hi-Tech Precision Products Ltd.	Wong Keung Former Engineering Supervisor	Professional Reference (Technical Competence & Engineering Performance)	19 Dec 2025

Hi-Tech Precision Products Ltd.		Engineering Experience Verification (R&D Electronic Engineer)	19 Dec 2025
Hi-Tech Precision Products Ltd.	Christopher Pun Company Manager	Professional Reference (Engineering Professionalism & Responsible Design Engineer for three CD/CDG Design and Projects)	20 Jun 1995
Hi-Tech Precision Products Ltd. (Member of the TWD/Tomei Group (Hong Kong-listed corporate group))	Authorized Company Representative	Employment & Salary Confirmation (For Income Tax Reporting Purpose)	14 Feb 1995

Section 3 – Position Descriptions & Corporate Responsibilities

Company	Referee	Purpose	Issued
Dale (HK) Ltd.	Eva So Executive Director	Company Job Description (Director – Product Development, Manufacturing & Supply Chain)	19 Nov 2025

Section 4 – Technical Innovation & Intellectual Property

Company	Document	Purpose	Issued
Patent (China)	Utility Model Patent Certificate – Bluetooth Indoor Positioning System	Demonstrates early innovation in Bluetooth-based indoor positioning technology, preceding Apple's public introduction of iBeacon at WWDC 2013.	9 Feb 2013
The Hong Kong Polytechnic University	Micro Fund Programme	Demonstrates innovation, entrepreneurship, product commercialization, and business model development. The 3D e-commerce virtual fitting project was recognized as one of the top-performing teams among approximately 200 participating teams.	2025
Dale (HK) Ltd.	Technical Project Portfolio (Selected OEM/ODM Engineering Examples)	Demonstrates engineering, product development, firmware support, PCB optimization, production readiness, OEM purchase order management, and technical program execution.	Dec 2025
Milo Enterprises Inc.	Edge AI Development Platform	Demonstrates Edge AI product development, system architecture, chipset strategy, technical feasibility, and project leadership.	2026
Milo Enterprises Inc.	Product Architecture Portfolio	Demonstrates IoT system architecture, hardware/software integration, intellectual property strategy, and commercialization planning. Note (1): Detailed technical documentation and design materials are not included in this portfolio due to confidentiality. Executive summaries and selected supporting materials are available upon request where appropriate.	2026

Section 5 – Business Performance Evidence

Company	Document	Source	Purpose
---------	----------	--------	---------

Pine Technology Holdings Ltd.	Public Annual Report Performance Evidence (Inventory Reduction & Working Capital Improvement)	HKEX Annual Reports	Supports inventory optimization achieved during my employment, including a US\$7.22 million (25.89%) inventory reduction, improved working capital efficiency and R&D cost reduction.
Ngai Lik Industrial Holdings Ltd.	Public Annual Report Performance Evidence (Revenue Growth & Profit Margin Improvement)	HKEX Annual Reports	Supports commercial growth achieved during my employment, including 27.3% revenue growth (HK\$631.6M) and improved gross margin from 6.67% to 8.14% during the company's transition to DVD products.

Section 6 – Commercial Supporting Documents (Optional – Available Upon Request)

Company	Document	Purpose
Circle Bakery (Client Project)	Client Authorization Letter (Google Play Developer Support)	Demonstrates client authorization for me to represent the company in technical and operational matters relating to its Google Play Developer account and a Hong Kong government-funded mobile application project, supporting my role in project management, technical coordination, and client representation.
Dale (HK) Ltd.	iMAP System Patent & Website Commercialization Evidence (2012–2014)	Demonstrates the development and commercialization of the iMAP BLE 4.0 Indoor Mapping, Proximity Marketing and Mobile Payment platform, including system architecture, patent development, website launch, mobile application development, and commercial deployment.
HF Group (Parent Company of METRONIC Europe)	European Distribution & Rebate Agreement	Demonstrates Dale (HK) Ltd.'s commercial supplier relationship with HF Group, the parent company of METRONIC's European operations, supporting the commercial relationship underlying the METRONIC customer reference and the distribution of Dale's OEM/ODM products across major European markets, including METRONIC subsidiaries in the United Kingdom, France, Italy, Spain, and the Netherlands.
Dale (HK) Ltd. / Synergy International Technology Ltd.	Chipset Procurement & Short Lead-Time Delivery Evidence	Demonstrates Dale (HK) Ltd.'s chipset procurement execution, partial shipment coordination, supplier payment support, and short lead-time delivery management for OEM/ODM production requirements.

Note (2): These documents are supplementary commercial records retained for verification purposes and are available upon request. They are not required to substantiate my employment history or professional references.

Section 7 – Professional Endorsements & Support Network

Name	Organization	Position	Relationship	Year
Professor Gábor Vajta	Central Queensland University (Australia)	Adjunct Professor	ITSP Innovation Project Support	2016
Professor Hung Yick Hin	The Hong Kong Polytechnic University	Professor of Practice		2016
Dr. Cheng Zhuo	The Hong Kong Polytechnic University	Associate Professor		2016
Dr. Mingyan Xu	HaploX Biotechnology Co., Ltd. (China)	CEO & Founder		2016
Dr. Pattarin Sridulyakul	Pulse Science Co., Ltd. (Thailand)	Vice President & Product Manager		2016
Mr. Lin Kwong Lee	Chinese People's Political Consultative Conference (CPPCC), Foshan City (Chancheng District), China Gold Clever Investment Co., Ltd. Adwin Holding Co., Ltd. (Hong Kong)	Councilor; Chairman; Director		2016
