

CAREER PORTFOLIO

Version 2.0 : Sept 2026

1. Connected Devices, Edge AI Platform (Oct 2025 - Jun 2026)

Outcome

- Supported development of an Edge AI-enabled IoT platform, contributing to system architecture and chipset strategy.
- Supported government-supported innovation initiatives related to NRC IRAP, SR&ED, and BDC, contributing to technical specifications, costing, chipset selection, BOM, and technical requirements.

2. Consumer Electronics, OEM/ODM & Manufacturing Leadership (2004 - 2019)

Outcome

- Improved manufacturing throughput by 10%+, achieved approximately 95% on-time delivery, and reduced lead times from 60+ days to approximately 30 days.
- Commercialized Philips RF Silicon Tuner-based DVB-T receivers (100,000+ units) within approximately six months.
- Recovered a one-year-delayed Timely ODM program to first shipment within three months, helping resolve several million Hong Kong dollars of excess inventory and accelerating its first notebook OEM program by two months.
- Led OEM/ODM product development, manufacturing, supply chain, and commercialization across Asia-Pacific and Europe.

Recommended References

Albert Mak (*Managing Director, Timely Products Co., Ltd. & Timely Electronics (Shenzhen) Co., Ltd.; Dale Contracted EMS Manufacturing Partner*)

- OEM/ODM manufacturing partnership, commercial operations, production, program recovery, and notebook program delivery.

Zhengjie Dong (*Former Managing Director, iWedia China, Philips Firmware Partner for Dale-Philips ODM Project*)

- DVB-T firmware integration, engineering validation, issue resolution, production readiness, and cross-company technical coordination.

Nicolas Lamblain (*R&D Manager, METRONIC S.A.S., Dale major client*)

- OEM/ODM product development, NPI, engineering evaluation, chipset selection, cost optimization, and production readiness.

3. OEM/ODM Product Transformation (2001 - 2004)

Outcome

- Reduced ERP inventory by US\$7.2M (25.9%) and R&D costs by 85% within two years through ODM-to-OEM business transformation, design standardization and optimization, and strategic supplier collaboration.
- Recovered the cancelled Samsung ODM program within approximately three months through product redesign, platform integration, supplier coordination, NPI, manufacturing readiness, and production ramp-up, delivering 100,000+ cumulative units to Creative within one year.
- Led OEM consumer electronics programs for Lenovo and other international brands at Moosik Ltd., from concept through engineering, NPI, manufacturing readiness, and commercial launch within approximately six months.
- Promoted to Business Unit Team Lead within approximately six months and subsequently appointed Vice President of Marketing & Project Management at Moosik Ltd.

Recommended Reference

Wang Shih Zen (*Vice President, Executive Director, Board Representative & Shareholder, Pine Technology Holdings Ltd.; Chairman & CEO, Z-Obee Holdings Limited (HKEX-listed company)*)

- Planning and execution, leadership initiative, conflict and risk management, industry knowledge, and business development.

4. Commercial Transformation, Product Growth & Market Expansion (1999 - 2001)

Outcome

- Delivered 27.3% revenue growth (~US\$81M/HK\$631M) while improving gross margin from 6.67% to 8.14%.
- Promoted to Sales & Marketing Manager within approximately six months and transferred to Group headquarters as New Product & Program Lead.
- Led the Group's product transformation from VCD/audio to DVD platforms, supporting international business expansion.
- Secured approximately 50,000 DVD mechanisms during a critical shortage, protecting recurring 100,000-unit L/C shipments and production continuity.

Recommended References

Tan Hui See (*Former MD/Sales & Marketing Director, Denca Limited; Former Managing Director, Dolby Asia*)

- Direct supervisory reference confirming promotion to Sales & Marketing Manager, business leadership, professional integrity, sound judgment, customer relationship management, and performance during organizational transition.

Raymond Tam (*Chief Executive Officer, Cataleya Leatherware Company Ltd.; Executive Vice President, Orient Power (Wuxi) Digital Technology Co. Ltd.; Former Director of Production & Engineering, Ngai Lik Industrial Holdings Ltd.*)

- DVD program leadership, cross-functional integration, product development, manufacturing expansion, and production ramp-up during the VCD-to-DVD transformation.

5. OEM Business Transformation & Scale-up Leadership (1996 - 1999)

Outcome

- Promoted to Operations & Marketing Manager within approximately six months, supporting organizational growth from approximately 500 to over 1,200 employees.
- Served as the Business Integration Leader, supporting the company's transition from a domestic audio distributor to an international OEM consumer electronics manufacturer, contributing to approximately 25% annual sales growth.
- Directed end-to-end OEM programs for SANYO, DAEWOO, Tiger Electronics/Hasbro, Lennox, and other international brands from NPI through mass production and shipment.

Recommended References

Chen Ming Fai (Kenny) (*Chief Electronic Engineer / Former Owner, Design Services Provider to Wai Kai Electronics Ltd.*)

- OEM product development, engineering execution, hardware/software/firmware coordination, compliance, pilot-run evaluation, and mass-production readiness for SANYO & DAEWOO portable VCD OEM programs.

C.K. Chan (*Director, Wai Kai Electronics (H.K.) Ltd.*)

- Management leadership, new project development, sales and marketing, strategic planning, cost analysis, and cross-functional management across Purchasing, Engineering, and Production.

6. Design and Project Engineering Development (1994 - 1995)

Outcome

- Supported three Sony & Sansui OEM CD Player, CD-Graphics (CDG), and CD Changer programs through schematic and PCB design, firmware and UI localization, component approval, pilot builds, production transition, and commercial launch within approximately nine months, completing the first flagship program approximately three months ahead of management's original implementation plan of more than one year.

Recommended References

Wong Keung (*Former Audio Testing Engineering Supervisor, Hi-Tech Precision Products Ltd.*)

- R&D electronic engineering, product testing and validation, production readiness, technical coordination, and cross-functional collaboration supporting Sony & Sansui OEM CD Player, CD-Graphics (CDG), and CD Changer programs.

Christopher Pun (Manager & Management-Authorized Signatory / Management Representative, Hi-Tech Precision Products Ltd.)

- Trusted Engineering Professionalism, Competent Design Engineer for Hardware Design, CD Player, CD Changer & CD-Graphics Product Development.

Section 1 : Professional Reference Letters

Company	Referee/Role	Document	Issued
Milo Enterprises Inc.	Wei (Will) Wang Former Director of Marketing and Operations	Professional Reference (Executive Leadership, Edge AI & Business Strategy)	27 Jun 2026

(Joined in early 2000)	Transfer Confirmation Following Group Reorganization & Transformation, Retroactive (Sales & Marketing Manager, Group-Wide DVD Program Lead, Transfer to Headquarters, Effective 1 Apr 2000)	1 Nov 2000
Denca Ltd.	Sammy Tam Finance Director & Group Executive Director, Ngai Lik Industrial Holdings Ltd. (Resigned in early 2000)	Employment Contract (Assistant Marketing Manager)	16 Sep 1999
Wai Kai Electronics Ltd.	C. K. Chan Director	Promotion Confirmation & Retroactive (Expanded Responsibilities for Growth & Transformation. Effective 1 Apr 1996)	14 Oct 1996
Philips Hong Kong Ltd.	Nelson Li Human Resources Manager	Employment Confirmation	27 Mar 1996
		Salary Increase Confirmation	29 Dec 1995
Hi-Tech Precision Products Ltd. (Member of The Grande Holdings Group, including TWD Industrial, Sansui Enterprises, Tomei Kawa Electronics, and related electronics businesses.)	Authorized Company Representative	Employment & Salary Confirmation (For Income Tax Reporting Purposes)	14 Feb 1995

Section 3: Technical & Engineering Evidence

Company	Document	Purpose	Issued
Patent (China)	Utility Model Patent Certificate: Bluetooth Indoor Positioning System	Evidence of team contribution to patented Bluetooth indoor positioning technology, including system design and commercialization.	9 Feb 2013
The Hong Kong Polytechnic University	Micro Fund Programme - AI 3D Try-On Project	Demonstrates AI innovation, technology commercialization, and product development; recognized as a top-performing project among approximately 200 participating teams and subsequently admitted to the HKSTP IDEATION Programme.	2025
Milo Enterprises Inc.	Hybrid Edge AI Platform – AI Model	Developed the AI Model Development Statement of Work (SOW), Acceptance Criteria, and Project Governance framework for outsourced AI engineering. Successfully completed Milestones 1 and 2. Prepared by Francis Tai - Project Lead, formally issued and signed by the third-party development partner.	23 Mar 2026
Milo Enterprises Inc.	NRC IRAP Innovation Funding Initiative	Initiated project feasibility assessment, prototype validation, project review, and innovation funding engagement with NRC IRAP to support the development of the Hybrid Edge AI Platform. First engagement: 27 Mar 2026.	27 Mar 2026
Milo Enterprises Inc.	Hybrid Edge AI Platform – Hardware & Firmware	Developed the Hardware, Firmware & System Architecture Development SOW, defining project scope, technical deliverables, system architecture, milestones, and project governance. Prepared by Francis Tai - Project Lead, formally issued and signed by the third-party development partner.	7 May 2026

Section 4: Business Transformation & International Engagement Evidence

Company	Document	Purpose
Indonesia Business Engagement	Signed Business Engagement & Executive Management Authorization Agreement (2013)	Evidence of international business engagement and Francis Tai's authority to engage and appoint local management in Indonesia, including Dr. Yuhana.
Pine Technology Holdings Ltd.	Executive Business Transformation Memorandum to the Top Management Board (2002) Prepared by Francis Tai, BU Team Lead	Demonstrates executive strategic thinking, organizational transformation, business turnaround, operational improvement, and executive communication to the Top Management Board.

Section 5 Supplementary Commercial Records (Available Upon Request)

Company	Document	Purpose
Pine Technology Holdings Ltd.	Financial Report Highlights – Inventory Optimization & R&D Costs	Public-company financial evidence supporting inventory optimization, R&D cost reduction, and operational improvement.
Ngai Lik Industrial Holdings Ltd.	Financial Report Highlights – Revenue & Profit Growth	Public-company financial evidence supporting revenue growth and gross margin improvement.
Creative Technology Limited	Creative Technology Annual Report	Evidence supporting the historical context of Creative digital audio product development and commercialization.
HF Group (Parent Company of METRONIC Europe)	European Distribution & Rebate Agreement	Signed / company-stamped evidence of European distribution, commercial cooperation, rebate arrangements, and Francis Tai's representation of Dale (HK) Ltd.
Dale (HK) Ltd.	Semiconductor Procurement, Supplier Invoices & Payment	Evidence of semiconductor procurement, supplier coordination, rebate-based cost optimization, and financial settlement supporting OEM/ODM production.
Dale (HK) Ltd.	Technical Supporting Documents – Selected OEM/ODM Examples	Evidence of product engineering, firmware and PCB support, manufacturing improvement, chipset procurement, and OEM/ODM execution.
Dale (HK) Ltd.	Philips RF Silicon Tuner (DVB-T) Rapid Commercialization Evidence	Evidence of rapid commercialization and manufacturing execution, including 31–34 day PO-to-Finished-Goods delivery across multiple customer programs.
