

CAREER PORTFOLIO

Version 3.1 : Sept 2026

1. Connected Devices, Edge AI Platform (Oct 2025 - Jun 2026)

Outcome

- Led development of an Edge AI-enabled IoT platform, including system architecture, chipset strategy, hardware and firmware requirements, PoC, outsourced AI model development, project execution, and four SR&ED technical experiments, while supporting NRC IRAP and BDC initiatives.
- Within approximately six months, proposed and advanced transformation and innovation initiatives, including SR&ED, NRC IRAP, and BDC, while taking on expanded responsibilities and completing assigned work, including system architecture, hardware and firmware high-level design, and BOM definition. Supporting documentation and references available upon request.

2. Consumer Electronics, OEM/ODM & Manufacturing Leadership (2004 - 2019)

Outcome

- Served as the Business Integration Leader in building and scaling up an ODM/OEM consumer electronics business while improving manufacturing performance, achieving 10%+ higher throughput, approximately 95% on-time delivery, and reducing lead times from 60+ days to approximately 30 days.
- Achieved a three-month program recovery, helped resolve several million Hong Kong dollars of excess inventory, and commercialized high-volume OEM/ODM consumer electronics platforms, including DVB-T within six months.

Recommended References

Albert Mak — Contract manufacturing / OEM/ODM manufacturing, commercial operations, program recovery, inventory clearance & product development.

Zhengjie Dong — Philips/DVB-T firmware and cross-company engineering collaboration & production readiness.

Nicolas Lamblain — Customer-side OEM/ODM product development and production readiness.

3. OEM/ODM Product Transformation (2001 - 2004)

Outcome

- Promoted to Business Unit Team Lead within approximately six months during business transformation and subsequently appointed Vice President of Marketing & Project Management at Moosik Ltd., taking on expanded cross-functional responsibilities across R&D, multi-region BUs, business, product development, manufacturing, supply chain, project management, and financial and commercial execution during restructuring.
- Recovered major OEM/ODM programs and supported the transition toward an OEM-focused business model, including restoring the cancelled Samsung ODM program within approximately three months and delivering 100,000+ cumulative units to Creative within one year.
- Reduced ERP inventory from **US\$24.5M to US\$20.7M by approximately US\$3.9M (15.7%)** within the first year and reduced R&D costs by **85% (US\$3.0M to US\$0.45M) within two years** through business transformation, design optimization, and supplier collaboration.
- Left the company after completing assigned projects and the outstanding Lenovo shipment, while maintaining professional and commercial integrity as a shareholder. Separately, during a period of NAND flash price volatility, management prioritized NAND flash trading at US\$5+ profit per unit and available supply was redirected, affecting other committed customer orders and resulting in short shipments.

Wang Shih Zen (*Vice President, Executive Director, Board Representative & Shareholder, Pine Technology Holdings Ltd.; Chairman & CEO, Z-Obee Holdings Limited (HKEX-listed company)*)

4. Commercial Transformation, Product Growth & Market Expansion (1999 - 2001)

Outcome

- Supported business continuity and transformation during key Group executive and Denca executive leadership transitions and restructuring, maintaining professional integrity and cross-functional execution while assuming expanded responsibilities at Group headquarters and supporting the development of a high-performing sales team.
- Contributed to **27.3% revenue growth (~US\$81M/HK\$631M)** during approximately **18 months of employment** through market development, commercial strategy, and cross-company integration leadership.
- Led the proposed 300,000-unit Toshiba OEM program through several months of new product development, production capacity and R&D capability evaluation, coordinating Engineering, Procurement, and Project Management, and working with chipset suppliers and Sony as the total DVD solution provider while competing with major listed ODM manufacturers.
- Maintained professional and commercial integrity in customer and program dealings by declining a personal financial benefit of **US\$0.30–US\$0.50** per unit offered in connection with a commercial discount related to **two delayed 100,000-unit shipments**, and reporting the matter to the Chairman, management, and former Director Hui See Tan.
- Demonstrated professional and commercial integrity in handling a separate client-referral matter involving a close personal friend of the GM of a Taiwan-listed company, following **three consecutive 100,000-unit orders**, appropriately addressing the matter and reporting it to the Chairman, management, and former Director Hui See Tan.
- Resigned for family reasons after completing the assigned task, following discussions with company management and former Director Hui See Tan, and subsequently undertook three months of training in Thailand.

Recommended References

Tan Hui See (Former MD/Sales & Marketing Director, Denca Limited; Former Managing Director, Dolby Asia)

Reference for professional and commercial integrity in two business cases involving a declined personal financial benefit and a separate client-referral matter involving a close personal friend of the GM of a Taiwan-listed company.

Raymond Tam (Chief Executive Officer, Cataleya Leatherware Company Ltd.; Executive Vice President, Orient Power (Wuxi) Digital Technology Co. Ltd.; Former Director of Production & Engineering, Ngai Lik Industrial Holdings Ltd.)

5. OEM Business Transformation & Scale-up Leadership (1996 - 1999)

Outcome

- Supported the transformation of a newly established subsidiary without proven OEM references into an OEM consumer electronics business, building a new customer and supplier base and cross-functional capability to support Tier 1/Tier 2 OEM development and manufacturing requirements.
- Developed technical and supplier support for new OEM programs, including travelling to Shanghai to engage Panasonic and its distributor on firmware access and customization support, contributing to rapid business scale-up, approximately 25% annual sales growth, and organizational expansion from approximately 500 to over 1,200 employees.
- Completed all MSc coursework in Electronic Engineering, together with LLC accounting studies to support cross-functional role requirements, while managing full-time professional responsibilities at Wai Kai, demonstrating sustained commitment to assigned work, accountability, and continuous improvement; the final MSc project was not completed due to work commitments.

Recommended References

Chen Ming Fai (Kenny) (Chief Electronic Engineer / Former Owner, Design Services Provider to Wai Kai Electronics Ltd.)

Further details are available in supporting documents prepared for ASET (Association of Science and Engineering Technology Professionals of Alberta) engineering assessment.

C.K. Chan (Director, Wai Kai Electronics (H.K.) Ltd.)

6. Design and Project Engineering Development (1994 - 1995)

Outcome

- Selected as an R&D electronic designer and project coordinator under a contract-based Japanese Chief Engineer, working across Group and company management, Sony & Sansui multi-region Business Units, Sony Semiconductor, Sony engineering design teams, and internal Engineering, Sourcing and Procurement, Manufacturing, and Quality teams.
- Supported three Sony & Sansui OEM transfer programs, including one CD player schematic and PCB redesign covering the main board, panel board, and power board for a new lower-cost mechanism and new driver IC, new tooling design

and locally sourced components, firmware/UI localization across 5+ countries, three pilot runs, and product and production launch within approximately nine months, with the first program completed approximately three months ahead of plan.

- Resigned after completing assigned projects and following the departure of the Chief Engineer, after discussions with management and receiving a positive reference from an authorized company manager, to pursue the next stage of professional development; after subsequently working at Philips Hong Kong, joined Wai Kai Electronics after being recruited by a former Hi-Tech colleague who was a Director at Wai Kai.

Recommended References

Wong Keung (Former Audio Testing Engineering Supervisor, Hi-Tech Precision Products Ltd.)

Due to product noise challenges associated with the new mechanism and driver IC.

Further details are available in supporting documents prepared for ASET (Association of Science and Engineering Technology Professionals of Alberta) engineering assessment.

Christopher Pun (Manager & Management-Authorized Signatory / Management Representative, Hi-Tech Precision Products Ltd.)

Section 1 : Professional Reference Letters

Company	Referee/Role	Document	Issued
Milo Enterprises Inc.	Wei (Will) Wang Former Director of Marketing and Operations	Professional Reference (Product Development, Edge AI & Business Strategy)	27 Jun 2026
Milo Enterprises Inc.	Adam Hui Global Quality Manager	Professional Reference (Manufacturing, Quality, NPI & Production Readiness)	25 Jun 2026
Milo Enterprises Inc.	Eddie Liu Management Information Systems Specialist	Professional Reference (Edge AI, Innovation & Business Transformation)	30 Jun 2026
Timely Products Co., Ltd. & Timely Electronics (Shenzhen) Co., Ltd.	Albert Mak Managing Director, Timely Products Co. Limited Dale Contracted EMS Manufacturing Partner	Professional Reference (Contract manufacturing / OEM/ODM manufacturing, commercial operations, program recovery, inventory clearance & product development)	20 Jul 2026
METRONIC SAS (Dale's Key European Customer, Subsidiary of Listed HF Company, France)	Nicolas Lamblain R&D Manager	Customer Professional Reference (OEM/ODM Product Development, NPI & Production Readiness)	22 Dec 2025
iWedia (Technical Partner – Philips & Dale HK)	Zhengjie Dong (Former Managing Director, iWedia China; Philips Firmware Partner for the Dale-Philips ODM Project)	Professional Reference (Philips/DVB-T firmware and cross-company engineering collaboration & production readiness)	22 Dec 2025
Moosik Ltd.	Wang Shih Zen President, Moosik Ltd. Vice President, Executive Director, Board Representative & Shareholder, Pine Technology Holdings Limited Chairman & Chief Executive Officer, Z-Obee Holdings Limited (HKEX-listed company)	Professional Reference (Planning & Execution, Leadership Initiative, Conflict & Risk Management, Industry Knowledge & Business Development)	19 Feb 2004

Denca Ltd.	Tan Hui See Former Managing Director, Denca Ltd. Later Managing Director, Dolby Asia Pacific Limited	Professional Reference — Ethical Leadership & Professional Integrity during Organizational Transition Two business cases involving a declined personal financial benefit and a separate client-referral matter involving a close personal friend of the GM of a Taiwan-listed company.	18 Dec 2025
Denca Ltd. (A subsidiary of Ngai Lik Industrial Holdings Ltd. (HKEX-listed company))	Tan Hui See Former Sales & Marketing Director (Reference issued following resignation around in Apr 2000)	Professional Reference (Trusted Leadership, Integrity & Customer Relationship Excellence)	1 Sep 2000
Ngai Lik Industrial Holdings Ltd. (HKEX-listed company)	Raymond T. Tam Former Executive Vice President Orient Power (Wuxi) Digital Technology Co., Ltd. (HKEX-listed company) Former Director of Production & Engineering, Ngai Lik Industrial Holdings Ltd.	Professional Reference (Group-Wide DVD Program Leadership, Product Development & Production Ramp-Up)	6 Jun 2026
Wai Kai Electronics Ltd.	Kenny Chen Chief Electronic Engineer / Engineering Lead Previous Owner (Design Services Provider to Wai Kai Electronics Ltd.)	Professional Reference (OEM Product Development, Engineering Execution & Manufacturing Readiness)	19 Dec 2025
Wai Kai Electronics Ltd.	C. K. Chan Director	Professional Reference (Program Leadership, New Project Development, Sales & Marketing & Cross-Functional Management)	14 Sep 1999
Philips Hong Kong Ltd.	Adrian Wong P.Eng., Former Engineering Group Leader, Philips HK; Current Chief Product Officer, Aura Circle	Professional Reference (DFM, Quality Improvement, Production Readiness & Technical Judgment)	19 Dec 2025
Hi-Tech Precision Products Ltd.	Wong Keung Former Engineering Supervisor (Audio Testing & Product Validation)	Professional Reference (Product Testing, Validation, Audio Performance & Technical Coordination)	19 Dec 2025
Hi-Tech Precision Products Ltd.	Christopher Pun Manager & Management-Authorized Signatory / Management Representative	Professional Reference (Design Engineering, CD/CDG Product Development & Project Support) Notes: Earned early recognition from company management for engineering potential, professionalism, cross-functional project coordination, accountability, and successful project completion.	20 Jun 1995

Section 2 : Employment & Corporate Verification

Company	Referee	Document	Issued
Milo Enterprises Inc.	Management	Employment Verification – Expanded Responsibilities for Business Transformation (Manufacturing Manager → Manufacturing, Supply Chain & Product Development Manager)	16 Mar 2026

Milo Enterprises Inc.	Management	Original employment offer confirming appointment as Manufacturing Manager and start date of 3 Nov 2025.	24 Oct 2025
Woods Global Limited	Dick Lim Lee Executive Director / Authorized Company Representative	Executive Leadership & Employment Verification	31 Oct 2025
Dale (HK) Ltd.	Eva So Executive Director / Authorized Company Representative	Employment, Directorship & Leadership Verification	30 Apr 2019
iMAP System Pte. Ltd.	Official Corporate Record / Singapore ACRA Business Profile	Company Incorporation, Business Activity & Directorship Verification	28 Apr 2014
Moosik Ltd.	Wang Shih Zen President, Moosik Ltd.	Employment Contract (VP of Marketing and Project Manager)	27 Mar 2003
Moosik Ltd. (Spun off from Pine Technology Holdings Ltd.)	Wang Shih Zen President, Moosik Ltd.	Transfer to Moosik – Francis Tai as Original Subscriber & Shareholder – Memorandum & Articles of Association / Annual Return Date: 19 Dec 2002 / 1 Dec 2003	2002–2004
Pine Technology Holdings Ltd. (HKEX-listed company)	Wang Shih Zen Vice President, Executive Director, Board Representative & Shareholder, Pine Technology Holdings Limited Chairman & Chief Executive Officer, Z-Obee Holdings Limited (HKEX-listed company)	Official Announcement - Promotion to BU Team Lead & Expanded Leadership Responsibilities, Business Transformation & Organizational Leadership	1 Mar 2002
Pineview Industries Ltd.	Michael Chiu Acting Unit Manager	Employment Contract (Project Manager)	17 Jul 2001
Ngai Lik Industrial Holdings Ltd. (HKEX-listed company)	Jim Yeung Finance Director & Group Executive Director, Ngai Lik Industrial Holdings Ltd. (Joined in early 2000)	Transfer Confirmation Following Group Reorganization & Transformation, Retroactive (Sales & Marketing Manager, Group-Wide DVD Program Lead, Transfer to Headquarters, Effective 1 Apr 2000)	1 Nov 2000
Denca Ltd.	Sammy Tam Finance Director & Group Executive Director, Ngai Lik Industrial Holdings Ltd. (Resigned in early 2000)	Employment Contract (Assistant Marketing Manager)	16 Sep 1999
Wai Kai Electronics Ltd.	C. K. Chan Director	Promotion Confirmation & Retroactive (Expanded Responsibilities for Growth & Transformation. Effective 1 Apr 1996)	14 Oct 1996
Philips Hong Kong Ltd.	Nelson Li Human Resources Manager	Employment Confirmation	27 Mar 1996
		Salary Increase Confirmation	29 Dec 1995
Hi-Tech Precision Products Ltd. (Member of The Grande Holdings Group, including TWD Industrial, Sansui Enterprises, Tomei Kawa Electronics, and related electronics businesses.)	Authorized Company Representative	Employment & Salary Confirmation (For Income Tax Reporting Purposes)	14 Feb 1995

Section 3: Technical & Engineering Evidence

Company	Document	Purpose	Issued
Patent (China)	Utility Model Patent Certificate: Bluetooth Indoor Positioning System	Evidence of team contribution to patented Bluetooth indoor positioning technology, including system design and commercialization.	9 Feb 2013
The Hong Kong Polytechnic University	Micro Fund Programme – Top Performer Letter – AI 3D Try-On Project	Demonstrates AI innovation, technology commercialization, and product development; recognized as a top-performing project among approximately 200 participating teams.	14 May 2025
Milo Enterprises Inc.	Edge AI Embedded System Validation, Digital Filter Design (SR&ED Experiment) & Patent Feasibility Assessment	Validated embedded AI acoustic signal processing, digital filter design, environmental noise constraints, FFT-based signal analysis, and PoC design validation for detecting small, fast-moving objects at millimetre scale using Edge AI. Conducted a patent feasibility assessment and supported four SR&ED technical experiment reports.	Feb–Apr 2026
Milo Enterprises Inc.	Hybrid Edge AI Platform – AI Model	Developed the AI Model Development Statement of Work (SOW), Acceptance Criteria, and Project Governance framework for outsourced AI engineering. Successfully completed Milestones 1 and 2. Prepared by Francis Tai - Project Lead, formally issued and signed by the third-party development partner.	23 Mar 2026
Milo Enterprises Inc.	NRC IRAP Innovation Funding Initiative	Initiated project feasibility assessment, prototype validation, project review, and innovation funding engagement with NRC IRAP to support the development of the Hybrid Edge AI Platform. First engagement: 27 Mar 2026.	27 Mar 2026
Milo Enterprises Inc.	Hybrid Edge AI Platform – Hardware & Firmware	Developed the Hardware, Firmware & System Architecture Development SOW, defining project scope, technical deliverables, system architecture, milestones, and project governance. Prepared by Francis Tai - Project Lead, formally issued and signed by the third-party development partner.	7 May 2026

Section 4: Business Transformation & International Engagement Evidence

Company	Document	Purpose
Indonesia Business Engagement	Signed Business Engagement & Executive Management Authorization Agreement (2013)	Evidence of international business engagement and Francis Tai's authority to engage and appoint local management in Indonesia, including Dr. Yuhana.
Pine Technology Holdings Ltd.	Meeting Note: Initial Joint Venture & Business Transition Planning	Evidence of the planned clearing of old inventory to generate working capital of up to US\$2M for the proposed Pine-to-Moosik joint-venture business and key product-model transition, including the related inventory clearance arrangement, as discussed at a Pine executive meeting.
Pine Technology Holdings Ltd.	Executive Business Transformation Memorandum to the Top Management Board Prepared by Francis Tai, BU Team Lead (7 Feb 2002)	Demonstrates executive strategic thinking, organizational transformation, business turnaround, operational improvement, and executive communication to the Top Management Board.

Wai Kai Electronics Ltd.	Salary Adjustment Letter – SANYO, DAEWOO & Tiger OEM Performance During Product Decline Stage (15 Jan 1999)	Evidence of management recognition and performance-based compensation for contributions to key OEM accounts, including Sanyo, Daewoo, and Tiger, during the product decline stage.
--------------------------	---	--

Section 5 Supplementary Commercial Records (Available Upon Request)

Company	Document	Purpose
Pine Technology Holdings Ltd.	Financial Report Highlights – Inventory Optimization & R&D Costs	Public-company financial evidence supporting inventory optimization, R&D cost reduction, and operational improvement.
Ngai Lik Industrial Holdings Ltd.	Financial Report Highlights – Revenue & Profit Growth	Public-company financial evidence supporting revenue growth and gross margin improvement.
Creative Technology Limited	Creative Technology Annual Report	Evidence supporting the historical context of Creative digital audio product development and commercialization.
HF Group (Parent Company of METRONIC Europe)	METRONIC Order Quantity Commitment & Rebate Agreement	Evidence of commercial cooperation, order quantity commitment, rebate arrangements, and Francis Tai's representation of Dale (HK) Ltd.
Dale (HK) Ltd.	Dale – Semiconductor Procurement, Supplier Invoices & Payment	Evidence of semiconductor procurement, supplier coordination, rebate-based cost optimization, and financial settlement supporting OEM/ODM production.
Dale (HK) Ltd.	Dale – Technical Supporting Documents – Selected OEM/ODM Examples	Evidence of product engineering, firmware and PCB support, manufacturing improvement, chipset procurement, and OEM/ODM execution.
Dale (HK) Ltd.	Dale – Philips RF Silicon Tuner (DVB-T) Rapid Commercialization Evidence	Evidence of rapid commercialization and manufacturing execution, including 31–34 day PO-to-Finished-Goods delivery across multiple customer programs.

Section 6 Professional Endorsements, Other References & Supporting Documents (Available Upon Request)

Additional historical professional contacts, project-related references, and supporting documents available for verification upon request.

Name	Organization	Position	Relationship	Year
Professor Gábor Vajta	Central Queensland University (Australia)	Adjunct Professor	2016 ITSP Innovation Project – Independent Letters of Support	2016
Professor Hung Yick Hin	The Hong Kong Polytechnic University	Professor of Practice		2016
Dr. Cheng Zhuo	The Hong Kong Polytechnic University	Associate Professor		2016
Dr. Mingyan Xu	HaploX Biotechnology Co., Ltd. (China)	CEO & Founder		2016
Dr. Pattarin Sridulyakul	Pulse Science Co., Ltd. (Thailand)	Vice President & Product Manager		2016
Mr. Lin Kwong Lee	Chinese People's Political Consultative Conference (CPPCC), Foshan City (Chancheng District), China Gold Clever Investment Co., Ltd. Adwin Holding Co., Ltd. (Hong Kong)	Councillor; Chairman; Director		2016

Portfolio Appendix

Notes: Supplementary professional evidence spanning my career, including OEM product development, cross-functional leadership, business transformation, technology partnerships, executive engagements including a meeting with a three-star general, and supporting records for CV claims. Password-protected; access available upon request.
